

**POWER DISTRIBUTION UNIT**

P/N:CFU 10-G-V1.5U-2.0-16A

S/N:N 12-020

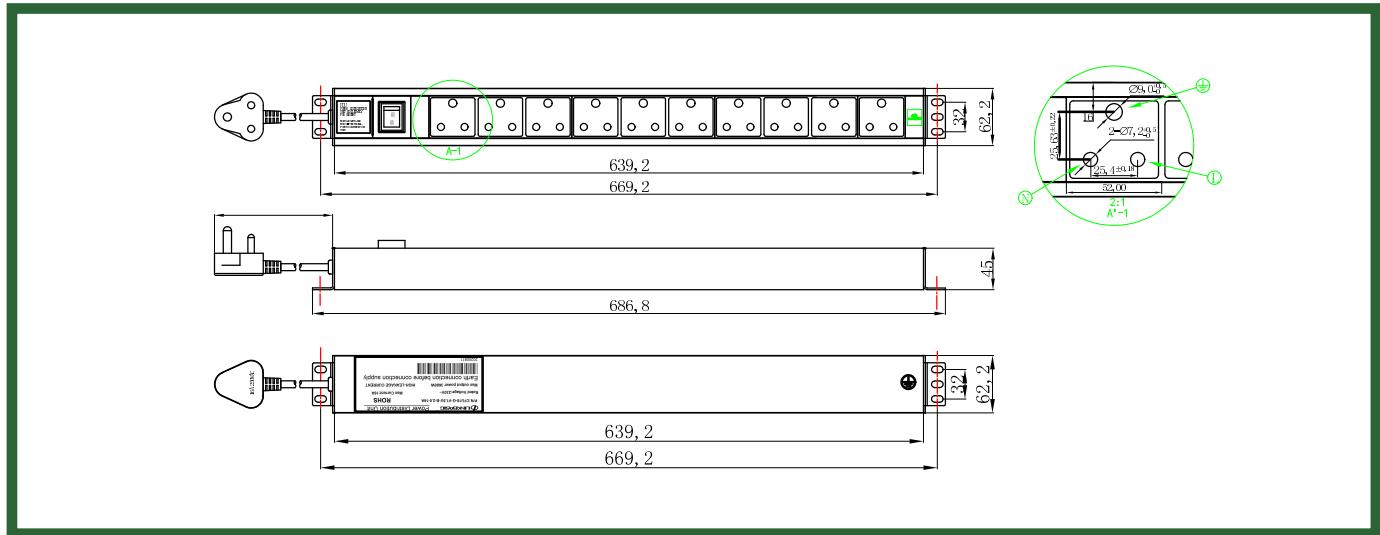

## PRODUCT INTRODUCTION

- All PDU adopt multi-functional modular structure. It meets international standard, and consists of different function module, such as power socket modules, control function module, protection function module, surge protection module, channel surge protection module, digital AC ammeter module, leakage protection module, etc.
- Specially matched standard cabinet, non-standard cabinet, and electronic & electric equipment in high-tech fields. Modular multi-functional power distribution unit with new structure and advanced international technology is reliable, easy to install, and widely used.

## TECHNICAL REQUIREMENT

- 10 way PDU, vertical
- Power input : 3X2.5 mm<sup>2</sup> ZA type 16A socket cable, 2 meter, red switch with light (double disconnect)16A
- Output: 10 way ZA type 16A socket
- Inside connection: 10 way brass panel, 2.5mm<sup>2</sup> stranded soft copper wire
- The shell: 1.5U Section aluminium with black color

10 way ZA PDU unit, vertical 1.5U, 2.0m, 16A

## ORDER INFORMATION
